GitHub: github.com/bencyubahiro77

Highly motivated Electronics and Telecommunication engineer with a strong background in Website development. Detail-oriented and dedicated to delivering innovative solutions. Fluent in English and French, with excellent problem-solving skills. Passionate about staying up-to-date with industry advancements. Committed to providing high-quality work and able to work with a flexible schedule.

Education

Sept 2018 – Jan 2023

University of Rwanda

Bachelor of Electronics and Telecommunication

Jan 2015 – Dec 2017

Ecole Secondaire de Kanombe / EFOTEC

A2 in Physics, Chemistry, Mathematics

Experience

Dec 2022 – Present

Andela Technical Leadership Program

During my time as a trainee at Andela, I honed my skills and built my portfolio. Notably, I contributed to the development of an E-commerce multi-vendor platform using the PERN Stack.

Oct 2022 – Present

Freelance

Working as a freelancer has allowed me to cultivate a strong sense of independence, creativity and ability to work under pressure, meet client expectations.

March 2022 – June 2022

Intern at The Giant Electronic lab

I had the chance to delve into circuit design and coding using Arduino IDE. This allowed me to enhance my understanding of integrating hardware and software components.

Skills

HTML 5 | CSS | JavaScript | React | Nodejs | MongoDB | PostgreSQL
